9. Minimum spacing after coating.
8. Coated wire diameter - Tolerances from ±0.0020
7. Available coated uncoated alumina or uncoated
6. Cold resistance @ 25°C
5. Total wire length
4. Buring length
3. Number of turns per hex
2. Material of type
1. Wire diameter

Notes:

- Material
- Overwound optional
- Coated leg length
- Tolerances from ±0.010
- Tolerances from ±0.015
